

If your boat has joint ownership.

There needs to be a single, real person as a "point of contact" for the boat. This is required to allow GFS to chase Insurance Certificates, Equipment Audits etc.

Where there are joint owners this can be easily handled by inputting the details in the "Name to display as SKIPPER" section as shown below.

For example the first name becomes "J Jones" and last name becomes "/L Brown" when you enter an event.

Remember to press submit at the bottom for the change to be recorded.

<p>Name to display as 'SKIPPER'. This can be 'James Cook OR 'J Cook / B Hughes' where there are joint owners. Leave this blank UNLESS the name is different to individual above.</p>	
First Name: <input type="text"/>	Last Name: <input type="text"/>

On the entry page there is also provision for a "Secondary Email " address and an "Additional SMS" mobile so any updates can be sent to two persons.

If you have two profiles with different email addresses and passwords, TopYacht can be set up with one of you as the primary point of contact and the other as a 'boat rep'. This will enable either of you to log in with your own credentials.
