## Upcoming 2025 dates

May	Sat	31	Prizes presentation from 3 PM
June	Sun	1	West Harbour winter series Race 1
	Sun	15	West Harbour winter series Race 2
	Sun	29	West Harbour winter series Race 3
July	Tue	8	AGM at 7.30 PM
	Sun	13	West Harbour winter series Race 4
	Sun	27	West Harbour winter series Race 5
August	Sun	10	West Harbour winter series Race 6
	Sat	23	Clubhouse working bee
	Sun	24	West Harbour winter series Race 7

## West Harbour Winter Series

The WHWS is a combined series with boats from Balmain Sailing Club, Drummoyne Sailing Club, Greenwich Flying Squadron and Parramatta River Sailing Club. All are eligible to enter at no cost.

Entry details are on the GFS website or the following links:

[Entries](#) – use the link to West Harbor Winter Series

[Instructions](#)

[Courses](#)

The series always provides good racing with a variety of different boats from the other three clubs.

There is also always an opportunity for someone from GFS to assist on the start boat.

## From the Editor

Tim Fletcher: Editor

I think everyone will agree the sailing this year brought us the full spectrum of conditions from being becalmed to surprisingly strong winds with several races cancelled. While there were some wet races, the season has finished with some lovely sailing weather and picturesque sunsets.

Image: Danni McLean

The full summary of the **2024-2025 seasons results and trophy winners** are included towards the end of this edition. Congratulations to everyone who won prizes and to all that participated.

A big shout out of thanks to **Joe Walsh Rigging Services**. We have had several issues with Sabot masts and booms that were beyond our ability to fix. He has generously offered to fix them for free.

One of the great things about GFS is the sense of **community and friendship** everyone shares at the club. A great example of this is how the club and members have rallied around Ann Davey. This touched Ann and she has written to the club to say thank you.

*"I just want to give a huge thank you to you all for the support and help you have given me since Graeme passed away.*

*I was so overwhelmed that the club offered and put on the wake for Graeme, if not for you I don't think there would have been a wake. Just organising his service was so hard and mind numbing, that was about as much as I was capable of doing at the time."*

Ann was also the recipient of the raffle prize to Hobart after the winner gifted it to her. Ann has given us some lovely pictures from the **Wooden Boat Show** which I have included in this edition.

Many thanks to all our contributors for this edition. Our next edition will be at the end of the winter series prior to the start of the Spring season. Article contributions will be gladly received. ☺️ ⚓

Image: Ann Davey

## Commodore's Message

*John Veale: Commodore*

Greenwich Flying Squadron is one of the most successful small sailing clubs in on Sydney Harbour, with a particularly strong Twilight fleet of around 80 boats entered and around 60 on the starting line most weeks.

The Club is in this position because of the strong team of volunteers who run it, and because of their ability over many decades to adapt to changing conditions. Examples include keel boats replacing the original 12ft skiffs, the Juniors program in its various forms and most recently the very strong Twilight program.

To do so required new ideas and energy at each turn.

I have a strong view that leaders of voluntary organisations such as GFS should turn over regularly so that there always fresh ideas on the table. Accordingly, after four years as Vice Commodore and three years in the role of Commodore I will not be standing again next year.

I want to say a big thankyou to all the GFS members who have shown me so much support and friendship during my time on the Committee. It's a great job, shared with wonderful people. Now all friends for life.

I am very pleased to say that our Vice Commodore, Steve Bradley, has agreed to let me nominate him as Commodore. Steve and I have worked very closely together over the past three years, and I have greatly appreciated his support, skills and counsel. He will do a great job and will bring enthusiasm and skills to it.

A number of other Committee members have also indicated that it is time for them to step down and Steve will be looking for volunteers to take on a number of roles to support our Club. GFS runs on volunteers - without them there would be no GFS. I encourage you all to take the opportunity. You will not regret it. ☺ ⚓

*Image Mark Palmer Twilight race March 1*

## Members Step Up at GFS

*Steve Bradley: Vice Commodore*

GFS put the call out for volunteers and 32 people said yes.

Some nominated for a job on the Committee while others expressed interest in one of the projects or roles essential to keeping the Club moving.

It is the sign of a healthy Club that so many people are willing to put their precious time into a voluntary activity.

The focus now is to link people to jobs that suit their interests, skills and time. If you're still thinking about volunteering, please contact either Steve Bradley or Leigh McLaughlin; the more resources we have, the more it spreads the load, the more work we can get done.

Some jobs need special skills but most need commitment, time and a good sense of humour. As the late American tennis pro Arthur Ashe said: "Start where you are. Use what you have. Do what you can."

And as former Commodore Pam Joy noted: "I have been a longstanding member of GFS and have always enjoyed the racing and camaraderie within the Club. However, one of the greatest highlights has been my involvement in the GFS Committee."

Some of the longstanding volunteers who are stepping down or changing roles are Commodore John Veale, Treasurer Martin Kluckow, Rear Commodore Junior Sailing Tim Kannegieter, sponsorships coordinator Maree Van Bellen and club mooring coordinator John Woods. They have all done a huge amount of work behind the scenes and we sincerely thank them for their contribution.

To chat about volunteering:

Steve Bradley, Vice Commodore, 0404 829 108

Leigh McLaughlin, Twilight Captain, 0412 234 832

Please contact us if you are interested in helping. 

## Twilight 2024 – 2025 Season Wrap

*Leigh McLaughlin: Twilight Captain*

Competitive racing and a friendly community spirit made this another enjoyable summer of twilight racing at Greenwich Flying Squadron.

The word on the water is we are one of the biggest twilight fleets on the harbour. Of course, size doesn't matter! But it's good to see people turning up week after week at our member-run 100-year-old sailing club.

Congratulations to skippers and crew for their achievements this season. There was tough competition in all divisions and healthy rivalry between boats: a few words may have been exchanged on the course every so often but what happens on the water stays on the water!

*Image Mark Palmer Twilight race March 12*

Unfortunately, there were a few incidents and some damage to boats. One of our priorities during the winter break is to review all of our policies and procedures concerning the safety of people and boats. Australian Sailing provides detailed information and advice which is being used to guide this work.

We saw more women sailing this season, a trend we'd like to see continue, and it's always good to see kids and young people joining in Twilight Sailing. Sailing is a great sport for all generations.

Members took advantage of the Swap Table to give away gear no longer needed (and pick up something you didn't know you needed)! The Rules Corner was a success, allowing people to educate themselves about the rules, ask questions and talk over interactions in a friendly atmosphere.

Thanks to everyone for their contributions to our 24-25 Season.

See you on the water! ☺ ⚓

## Saturday Sailing Season 2024 – 2025 Saturday Wrap

*Phil Hare (Saturday Sailing, Sailing Secretary, Humbug Lite Editor)*

Overall, the Saturday and Twilight fleets have enjoyed a good season and many of the final results indicate how close racing was across both fleets. Many final point scores had boats separated by just one point with others having boats finishing on equal points.

The strong Twilight Fleet continues to be the mainstay of the clubs racing calendar. Disappointingly the Saturday fleet has been smaller and will need some serious consideration as how to improve the numbers.

Leigh's Twilight report addresses the specifics of racing on Wednesdays.

Saturday sailing has and always will have a keen competitive fleet. The racing has been hard fought and fair with no major incidents. Final results again have been close. For once we have had more fine weather races than the last few seasons with only one Autumn Series race and one Summer Series race having to be abandoned.

Standout performances in final seasons point scores are Mal Blomfield and Col Filmer (and crew) in the Etchells Tonic in Division 1 and Cec Williams (and crew) sailing Joka in Saturday Division 2. Their results are indicative of the high level they have achieved.

Down Harbour races have proven to be more popular than the regular Saturday Series with an increased number of participants.

The West Harbour Winter Series commences in June and is open for all boats of financial members at no cost. Hopefully a strong contingent of 'Greenwich' boats will

compete. This series is run by Balmain Sailing Club and has an early start around 11.30 am with races every two weeks.

I would like to thank the regular Saturday Starters Scarlett Hall and Eve Syriatowicz on behalf of all Saturday competitors for their diligence and dedication to starting and finishing races this season. Their reliability is greatly appreciated.

Please keep an eye on the GFS website for important club information throughout the off season just in case. At this stage it looks likely that Saturday sailing for the 2025 – 2026 season will commence on September 6, 2025.

Of course, check the Face Book page for pictures and stories over winter.

Enjoy the 'break' before next season. ☺ ☺ ⚓

## **An Eventful Junior Sailing Year**

*Tim Kannegieter: Rear Commodore Junior Sailing*

The season just finished has been one of the most eventful in recent years for the Junior Sailing program.

The drama started even before the season started when we identified an insurance issue that could have halted the program altogether. Thankfully we identified a pathway forward which led us to establish a formal Discover Sailing Centre, accredited by Australian Sailing. Many pages of policies and procedures later and emergency training of volunteers, we got the season underway one week late.

Things heated up even more in the run up to the National Sabot Championships being hosted at Drummoyne over the New Year. We started with Round 1 of the State Championships at the same venue and then a week-long training camp lead by an Olympian from the recent Paris Olympics, Evie Haseldine.

Aided by the proximity of Drummoyne which was close enough for us to sail to, we had five sailors competing in the Nationals across the open and green (beginners) fleet. Highest placed was Theo Anderson, regularly placing in the top third of a very competitive fleet.

We then participated in the Australia Day Sabot Regatta at Lane Cove 12ft Skiff club where Rupert Anderson and Oscar Patton took out the Two-Up title earning them a trip to the Town Hall to collect their medals.

Round 2 of the State Champions saw another 4 sailors make their way to the Great Lakes Sailing Club on Lake Wallis near Forster, which was a really different experience for the sailors.

The season's competition was completed by Combined High School Championships with three days of near 20 kt winds just before Easter. Olivia Kannegieter placed 3rd in the Flying 11 class of 15 boats and 10th overall from a fleet of 80, crewing for a skipper from Lane Cove 12ft, Aubrey Webster. Theo Anderson also competed with John Upton, who did well to beat a number of other Flying 11s in their first ever F11 regatta.

The Junior Sailing program at GFS remains health with a large number of beginners coming through. Perhaps the most exciting thing that happened this season was the introduction of Lasers to the junior program. Thanks to strong support from the Lasers captain Michael Wise and donations of Lasers from Jason Anderson and Andreas Laubi, we were able to retain four older juniors who would most likely have left the club. The kids had a blast and they were a great fun option for the smaller kids on light wind days to vary the program.

Looking forward, the big news is that the club has approved the purchase of ten training Optis (Tackers) which included a 50% subsidy grant from Australian Sailing and Whitworths (big thanks!). This was a big move and one not made lightly. The sabots will continue but only for the more advanced juniors and we will transition them back to private ownership. The main issue was the challenge they presented to complete beginners. One of the Laser racks will be removed to make room for the new boats.

We are looking forward to a bumper season in the coming year. ☺ ⚓

## Outside Starts – Some Context

*John Veale: Commodore*

At the end of the 2023-24 Twilight season the GFS Committee conducted a survey designed by Steve Bradley to seek members views on a number of matters.

A number of themes emerged, including that in the early and late weeks of the season, races were too short because of early sunset, that at the same time breezes were often very light and sometimes boats could not finish and that finishing in the dark sometimes raised safety issues. Some skippers wanted to start our races earlier but that would have posed problems for sailors leaving work. Some of these responses reminded me of a race some years ago which finished well after dark, in the rain and thus poor visibility.

All of this led to a proposal to start and finish our first and last four races in the Parramatta River. This amounted to an earlier start in the usually better breezes of the Parramatta River than those in Humbug, and a better (but not guaranteed) chance of all boats finishing before sunset.

Our latest survey of members mostly supported this innovation, though some rightly noted room for improvements, several of which were already under way as we learned some lessons over the season.

A number of members raised two concerns that I would like to put into context, because they are difficult to address given our resources.

The first is that the starting line set in the Parramatta River did not have the appropriate slight bias to the pin end, and thus boats all tried to start at the biased end.

Members who have sailed in dinghy regattas over many years will remember many occasions when they waited for what seemed an eternity while officials waited for the breeze to settle so that they could set a perfect line. Many will also remember that boats starting in later divisions had to wait again because the breeze had shifted sufficiently for the race officials to feel the need to reset the line.

This search for perfection takes time and multiple official boats to move marks. We have the luxury of neither. Once the pin has been set, the only adjustment of the line is by altering the length of the start boat anchor chain. And we have seven divisions to get away at five-minute intervals, the last starting at 1810 with around an hour until dark.

In contrast to dinghy regattas generally held in the afternoon, we do not have the luxury of time.

*Image Mark Palmer Outside start April 3*

It's worth noting that the starting line for outside starts are generally better set than that from the clubhouse, which pays no attention to the prevailing wind direction.

The second concern was that some races should be shortened when the breeze drops out. The Committee has looked at this option, but given our resources it seems impractical.

First it is often some time into a race before the breeze drops sharply. We have only one Committee boat. We do have two RIBs but they have no lights so could not be used as light faded.

As a practical example of the problem, consider a race in which boats sailing the Orange course rounded Goat Island to starboard and then went to the finish. Boats sailing the White board course rounded Goat to starboard and then Cockatoo to starboard and then to finish. With some boats finishing from the east and some from the west, where could the course be shortened. Our not always perfect solution is to do our best to set courses that give all boats a reasonable chance of finishing. 🌬️🚤

## Rules Corner

*Steve Bradley: Vice Commodore*

The Rules Corner has operated at most Twilight BBQs and is a great way for sailors to increase their understanding of the rules and contribute to fairer and safer racing at GFS. Skippers and crew approach the corner when something has occurred during the race that they would like to review. All incidents are discussed in a friendly and non-judgemental way and advice is offered from a small panel of experienced sailors.

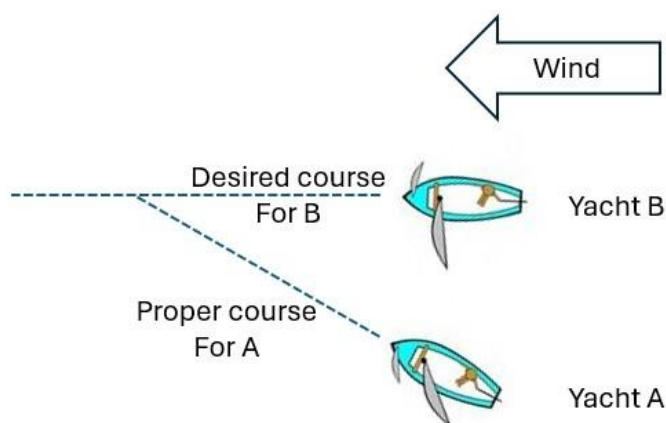

Here are a couple of issues that were reviewed:

### 1. Proper Course

Sailing downwind on starboard tack Yacht A established an overlap with Yacht B, within two boat lengths to leeward. Yacht A wanted to sail at 150 degrees to the wind to optimise her downwind performance. Yacht B wanted to sail straight downwind. As Yacht A converged on Yacht B, Yacht B called for Yacht A to sail her proper course and not luff up. Yacht A responded that she was sailing her proper course and as the windward boat, Yacht B should keep clear.

The racing rules define proper course as 'a course a boat would choose in order to sail the course as quickly as possible in the absence of the other boats referred to in the rule'

In this case Yacht A was sailing her proper course as this was her quickest angle to sail the course. The fact that Yacht B's proper course was different was irrelevant and as the windward boat she needed to keep clear. Yacht A must not luff up and sail above her proper course.

### 2. Moored Boats

There were differences of opinion on whether yachts approaching moored boats must stay outside of an imaginary line between the moorings or can dip inside the line as long as they stay on the course side of the moorings.

The racing rules state that 'All areas enclosed by private moorings are prohibited areas for all Club courses. Yachts racing in GFS events are not permitted to sail between moorings and the adjoining shore. Each area is considered to be an obstruction, not surrounded by navigable water, and not a mark of the course.'

After discussion it was clarified that yachts must stay outside an imaginary line linking the moorings and cannot dip inside. As moored boats are a continuing obstruction yachts can call for 'Room to Tack' but must stay outside the line of the moorings.

The Rules Corner will be running next Twilight Season so if you have an issue you would like to discuss please come forward for a friendly, and hopefully enlightening, discussion. ☺ ⚓

## GFS Social Secretary Report – Twilight Season 2025

*Glenda Cameron-Strange (Social Secretary)*

The 2025 Twilight Season came to a close on a high note, with a full deck of sailors enjoying the sunset and swapping stories from the final race over a relaxed BBQ. It was a fitting end to another memorable season.

Our post-race BBQs continue to be a highlight of the Twilight series, where skippers and crew come together—whether to compare courses, offer a cheeky pat on the back for perfect sail trim, or simply share a laugh. It's always a great time, full of the camaraderie GFS is known for.

Following the celebrations of our Centenary in 2024, we ended the year with two wonderful traditions: the Youth Off The Streets (YOTS) sail in December and our much-loved GFS carollers, who once again brought festive cheer to the deck with their Christmas tunes.

While the start of 2025 brought some rough weather and a few storms, conditions improved steadily, leading to fewer race cancellations as the season progressed.

A big thank you goes to Bern the Chef and the amazing catering team, who not only kept up with the changing weather but made sure we were well fed and looked after—always with a smile. Your efforts never go unnoticed.

This year also saw two major raffles to support our ever-popular Junior Sailing Program.

The first, a weekend getaway to Hobart for the Wooden Boat Festival, was generously donated by an anonymous member. It was won by Susan Benjamin, who graciously passed it on to Anne Davey—a longtime friend and crewmate aboard G-Whizz, the boat she shared with her late husband Graeme. Anne and Graeme had always hoped to attend the event, and Susan's kind gesture helped make that dream a reality.

The second raffle was expertly coordinated by Maree van Bellen, featuring a selection of Robert Oatley wines and Helly Hansen jackets and vests—prizes that were very well received. A heartfelt thank you to Maree for your dedication and to all our members who supported the cause by purchasing tickets.

We are incredibly grateful to our sponsors for their unwavering support throughout the season:

- **Helly Hansen**
- **Robert Oatley Wines**
- **Zjoosh**
- **Doyle Sails**
- **Joe Walsh Rigging**
- **GWM Pennant Hills**

Your partnership and generosity are deeply appreciated by everyone at GFS.

Finally, a special thank you goes to three outstanding individuals who went above and beyond this season: Maree and Adrian van Bellen, and Holly Charalambous. Your time, energy, and dedication to GFS make a world of difference—thank you for everything you do.

That's a wrap for the 2025 Twilight Season! Wishing you fair winds through winter, and we look forward to seeing you back on the water soon. 

## GFS Centenary book

There are still a few copies of the **GFS Centenary book** available. If you have not picked up your copy yet, please do. This is a 180-page hard cover book, packed with stories, memories and photos from GFS members.

\$50.00 each – Copies are available at Chambers Cellars in Greenwich or via Ros Bradley on email [rsbrad99@gmail.com](mailto:rsbrad99@gmail.com) or Mobile 0410690246. ☼ ⚓

## News from Women's Sailing

*Leigh McLaughlin (Twilight Captain)*

The Women's Helm is a centrepiece of the Club's program to involve more women in sailing.

Race one in the 2025 series was held on 15 January in extremely challenging conditions; the second race, planned for 22 January, was postponed to 5 February due to poor weather.

Winners of the 2025 Women's Helm were French Connection (Beatriz Calvete), Incentive (Tegan Franklin) and Minnow (Prue Clarke). Congratulations to all helmswomen and their supporters, advisors and mentors.

The Women's Helm started in 2021 at the initiative of Pam Joy, Skipper of Tana, who became the Club's first female Commodore in 2018. The Series has grown in profile and popularity largely due to the efforts of Holly Charalambous from Aetos with the

assistance of Sailing Secretary Phil Hare, Handicapper Bram Pemberthy and Membership Secretary Chris Gaskell.

The Club wants to see more women and girls sailing, more women owning boats and more women helping to run the Club.

The Women's Helm is a key step towards meeting the aspirational target to make GFS the best club on the Western Harbour for women's participation. After four years, it's time to review the event and make changes to enable it to grow and develop into the future.

Commodore John Veale and former Commodore Pam Joy have taken on the task of designing an expanded Women's Helm Series to take place in the 2025-2026 Season. Members are encouraged to talk to Pam and John about their ideas and suggestions.

The Club has a number of other events and activities planned, thanks to Jane Bolster, Skipper of Kia Kaha, who has put together ideas and on how to involve more women in sailing. The plan is to use the volunteer recruitment drive currently underway to build a small team to support this activity. Keen to help? Seeking more information? Please contact [twilightcaptain@gfs.org.au](mailto:twilightcaptain@gfs.org.au)

Cathy Lunsmann, sailing on Adrenaline says:

"Sailing an Etchells is great fun. There is always something to do for everyone on board, so you are active all the time. None of the tasks take great strength and it is all very manageable. I did not have much of a background in sailing when I started sailing on Brian Cunynghame's "Flashback" back in 2008, and no experience sailing an Etchells when we started sailing Adrenaline in 2019, but that was never a problem." 🌊 ⚓

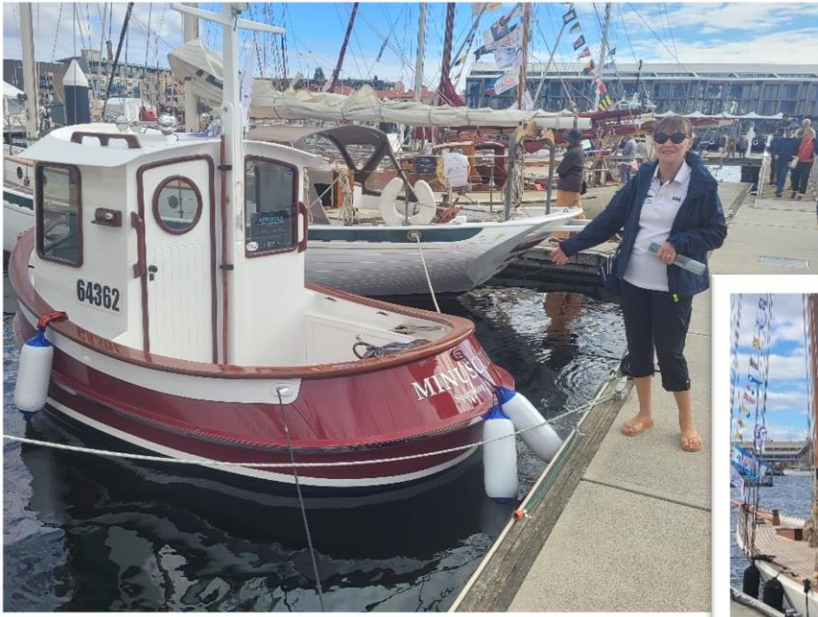

*Photo: Left to right: Rolf Lunsmann, Cathy Lunsmann and "Doc" Blower.*

## Wooden Boat Show

*Ann Davey: G-Whizz*

The winner of the Wooden Boat Show raffle kindly gifted the prize to Ann Davey. Ann had a wonderful time at the boat show and shared the following pictures for everyone to enjoy. ⚓

## GFS Sponsors

### Helly Hansen

Helly Hansen is a company manufacturing professional grade gear. It offers technical sailing and performance ski apparel, as well as premium workwear. The Company provides clothing and footwear for sailing, hiking and other outdoor activities.

### Joe Walsh Rigging

Joe Walsh Rigging specialises in all marine and architectural rigging, masts and spar fabrication, repair, painting, all rigging requirements, furling systems and AYF Rig Insurance Inspections. Located at Woolwich Marina.

### Doyle Sails Sydney

Doyle Sails Sydney is in Gladesville. Services include an in-house design team, laser cutter and modern machinery for new sails, repairs, covers and ongoing service.

### Oatley Wines

ROBERT OATLEY

Robert Oatley Wines celebrates the memory of Bob Oatley through a trio of labels: the maritime-influenced Signature Series, the specific vineyard focused Finisterre, and the best of the best barrels under The Pennant label. They focus on wines from Margaret River and McLaren Vale.

### Zjoosh ZJOOSH

Located in Lane Cove, Zjoosh is a unique Australian lifestyle brand. It specialises in "the finishing touches". From its early beginnings as a fashion jewellery and accessories brand, Zjoosh has now broadened to homeware and gifts.

### GWM Pennant Hills

GWM Pennant Hills is a family-owned business that has been operating at the same location at Thornleigh, since 1984. The business has maintained a strong association with GFS for over 20 years. GWM offers a modern and dynamic range of electric vehicles (EVs), hybrids, SUVs, Utes, and FWD vehicles.
